

SPACE SEEKER™

SPACE SEEKER™

TAITO invites you to enter a new world in outer space where sight and sound become an exciting adventure. Not an average space game, but 3 exciting games in 1.

Space games are always popular, and "SPACE SEEKER" is a new, full-color, 1- or 2-player adventure designed to challenge even the most sophisticated players.

Game Features: The player becomes a pilot of a futuristic spaceship whose mission is to protect home base on a distant planet. Enemy bases and enemy air force squadrons hover above home base waiting for a chance to attack. The Player must seek, enter, and destroy the floating enemy bases and squadrons—or they will invade and annihilate home base.

Each enemy base is different and requires a different strategy to be destroyed. Enter an enemy base and fly between dangerous magnetic clouds and rough mountainous terrain to shoot or bomb enemy installations and rockets. Earn bonus points by quickly exiting the enemy base. But be careful as exiting requires skillful flying ability, and a loss of time will enable the enemy fortresses to invade home base.

Play Features: While the player selects an enemy base or squadron to enter and obliterate, he must avoid gravity contact from planetoids orbiting his planet or become momentarily immobilized.

A time-control feature encourages the player to become the aggressor and to move quickly or home base will be invaded and destroyed.

Graphics Features: Entry into an enemy base will allow the player to see his attack from above. Entry into an enemy air force squadron simulates a head-on-attack view from the spaceship cockpit.

Continuous Play Feature: When the player has lost all of his spaceships, he can add a coin(s) and press the exclusive continuous play button to remain in the same pattern.

SPECIFICATIONS . . .

	Height	Width	Depth	Weight
Upright	69 inches (1760mm)	34 inches (865mm)	28 inches (715mm)	214 lbs (97kg)
TT-30 inch	35 inches (890mm)	35 inches (890mm)	31 inches (800mm)	165 lbs (74kg)
